CARDIAC SURGERY

INTERMITTENT ADMINISTRATION

RENAL FUNCTION

INTENSIVE CARE/ANAESTHESIA

The calcium sensitizer levosimendan improves human diaphragm function.
Am J Respir Crit Care Med 2012;185:90-95.

Jaber S, Jung B, Matecki S, et al.
Clinical review: Ventilator-induced diaphragmatic dysfunction - human studies confirm animal model findings.

Levosimendan for resuscitating the microcirculation in patients with septic shock: a randomized controlled study.
Crit Care 2010;23:22.

Reducing the risk of major elective non-cardiac surgery: is there a role for levosimendan in the preoperative optimization of cardiac function?

Prophylactic preoperative levosimendan administration in heart failure patients undergoing elective non-cardiac surgery: a preliminary report.

Weaning failure from mechanical ventilation due to dilated cardiomyopathy: successful use of levosimendan.

Effects of levosimendan in acute heart failure and cardiogenic and septic shock.

Pinto BB, Rehberg S, Ertmer C, et al.
Role of levosimendan in sepsis and septic shock.

Levosimendan infusion improves haemodynamics in elderly heart failure patients undergoing urgent hip fracture repair.

Sterba M, Banerjee A, Mudaliar Y.
Prospective observational study of levosimendan and weaning of difficult-to-wean ventilator dependent intensive care patients.

Toller W, Knez I.
Medical support and surgery of the failing heart: levosimendan.

Effects of levosimendan on right ventricular afterload in patients with acute respiratory distress syndrome: a pilot study.
Crit Care Med 2006;34:2287-2293.

Effects of levosimendan on systemic and regional hemodynamics in septic myocardial depression.

PAEDIATRICS

Ebade AA, Khalil MA, Mohamed AK.
Levosimendan is superior to dobutamine as an inodilator in the treatment of pulmonary hypertension for children undergoing cardiac surgery.
J Anesth 2012;Dec 9: [Epub ahead of print].

Phase 1 study of two inodilators in neonates undergoing cardiovascualr surgery.
Pediatr Res 2012;Nov 8: [Epub ahead of print].

De Carolis MP, Piastra M, Bersani I, et al.
Levosimendan in two neonates with ischemic heart failure and pulmonary hypertension.
Neonatology 2012;101:201-205.

Levosimendan versus milrinone in neonates and infants after corrective open-heart surgery: A pilot study.
Pediatr Crit Care Med 2012;May 22 [Epub ahead of print].

Levosimendan infusion in newborns after corrective surgery for congenital heart disease: randomized controlled trial.
Intensive Care Med 2012;38:1198-1204

Suominen PK.

Treatment of acute heart failure using levosimendan for a patient with dilated cardiomyopathy, chronic renal failure, and hypertension.
Pediatr Cardiol 2011;32:1012-1016.

Acute effects of levosimendan on cerebral and systemic perfusion and oxygenation in newborns: an observational study.

Initial experience with levosimendan infusion for pre-operative management of hypoplastic left heart syndrome.
Pediatr Cardiol 2010;31:166-167.

Levosimendan in congenital cardiac surgery: a randomized, double-blind clinical trial.
Margossian R.

Lechner E, Moosbauer W, Pinter M, et al.

Namachivayam R, Crossland DS, Butt WW, et al.

Turanlahti M, Boldt T, Palkama T, et al.

META-ANALYSIS

Maharaj R, Metaxa V.

HEALTH ECONOMICS

Economic evaluation of levosimendan versus dobutamine for the treatment of acute heart failure in Italy. Adv Ther 2012;Dec 6: [Epub ahead of print].

Fedele F, D’ambrosi A, Bruno N, et al.

MISCELLANEOUS / REVIEWS

Levosimendan preoperative. Curr Pharm Des 2012;Dec 4: [Epub ahead of print].
